Moderate Income Units Guidelines

Voted January 5, 2022

The Moderate Income Guidelines apply to moderate income ownership units created through Special Permit conditions. For this purpose, moderate income households are defined as households earning between eighty (80) and one-hundred and fifty (150) percent of the Area Median Income (AMI) for the Boston Metropolitan Statistical Area. The Planning Board will define the specific target income (AMI) for the development in the special permit depending on the specifics of the proposed project.
