

# **Town of Lexington Annual Town Meeting 2022**

## **Article 4: Appropriate the FY2023 Operating Budget**

This article requests Town Meeting approval for the Fiscal Year 2023 operating budget. Town Meeting can review recorded presentations of the Town Manager, Minuteman Tech and LPS Superintendent of Schools regarding their FY23 operating budgets.

The operating budget is the result of four financial summits and approximately 7 months of work by staff, various boards and committees, our two financial committees, the School Committee and the Select Board. All of those involved in this process worked collaboratively to bring you a recommended balanced budget that considered the capital needs of our long-term planning. The Select Board are grateful to the School Committee and two financial committees for their hard work and dedication in this regard.

The Select Board unanimously supports passage of Article 4.
