 - 2 additional chargers, 4 parking spots
 - Expansion potential for 1 additional charger
 - Depot Lot
 - 2 additional chargers, 4 parking spots
 - Expansion potential for 1 additional charger
-

Eversource EV Charging Program

Eversource will cover the cost of the infrastructure, all engineering, planning, labor, materials, trenching, equipment pads, meters, etc... required to install the EV chargers.

Lexington would be required to purchase the EV charging equipment and have it connected by a contracted electrician.

Eversource EV Charging Program
